

# Tax Credit Scholarship Program: Key Facts

## What is a Tax Credit Scholarship Program?

The program allows individuals and corporations to donate to scholarship granting organizations and receive a credit on their state taxes in return. These organizations can then use this money to grant scholarships to qualifying students.

- A tax credit scholarship program is NOT a tuition tax credit. It does not allow parents to get a credit for tuition paid on behalf of their own child.

## How much is the credit worth?

An individual or corporate donor will receive a 75% credit on their donation. This means that if a donor donates \$10,000, they will receive a state tax credit of \$7,500.

- Donations by both individual and corporate donors are capped at \$1 million.
- Individual donors can direct their donations to the school or subset of schools of their choice.
- Corporate donors cannot designate.
- The credit is non-refundable, but can be carried forward for five years.

## Can a donor receive a federal tax deduction in addition to a state tax credit for the same donation?

No. The legislation specifically prohibits this.

## Is there program cap? If so, what is it?

Yes, there is a cap. It is \$75 million.

- The cap indicates the amount of tax credits that can be handed out; it does not cap the amount of scholarships that can be distributed under the program.
- In order for the \$75 million cap to be hit, \$100 million will have to be donated.

## How does the donation process work?

Beginning on January 1, 2018, individual and corporate donors will be able to reserve tax credits on the Department of Revenue website.

They will then have 60 days to donate the amount they reserved to the scholarship granting organization(s) of their choice.

After donating, they will receive a certificate of receipt from the scholarship granting organization, indicating that a donation was made.

The scholarship granting organization will then notify the Department of Revenue that a donation was made.

If a donor does not donate, rescinds their donation, or gives less than they indicated to the Department of Revenue, they will not receive ANY tax credit.

All unused tax credits will be put back into the program until the cap is hit.

### **What is a scholarship granting organization?**

A scholarship granting organization, or SGO, is a 501(c)(3) non-profit organization whose primary aim is to give scholarships to students.

### **What are SGO regulations?**

A SGO must be approved by the Department of Revenue before donors can receive a tax credit for donating to it.

A SGO must use at least 95% of donations during a taxable year for scholarships, and may carry over up to 25% of unused donations to the succeeding calendar year through 2022.

A SGO cannot be operated by an individual who has filed for individual or corporate bankruptcy in the last seven years.

A SGO cannot be operated by an individual who owns or operates a school that participates in the program or who has a relative who is a paid staff or board member of a school that participates in the program.

A SGO must abide by federal anti-discrimination provisions.

A SGO must only give scholarships to eligible students attending participating schools.

### **Who qualifies for scholarships?**

Initially, students whose families earn 300% of the federal poverty level or less (\$73,800 for a family of four) qualify. Once a student receives a scholarship, his or her family can earn up to 400% of the federal poverty level (\$98,400 for a family of four).

From February 1<sup>st</sup> to April 1<sup>st</sup>, priority will be given to students from each of the following categories:

- Students who received a scholarship from a SGO during the previous school year;
- Students who are members of a household whose previous year's total annual income does not exceed 185% of the federal poverty level (\$45,510 for a family of four);
- Students who reside within a focus district; and
- Students who are siblings of students currently receiving a scholarship.

After April 1<sup>st</sup>, all other qualifying students will be able to receive scholarships.

### **How does a SGO determine the size of a scholarship a student receives?**

In order to qualify for a scholarship, a student's family will have to give official documentation of their ability to pay to the SGO.

Based on how a student's household income compares to the federal poverty level, a student will receive the following:

- For students whose household income is less than 185%, the scholarship will be 100% of tuition and necessary fees;
- For students whose household income is between 185% and 250%, scholarships will average 75% of tuition and necessary fees; and
- For students whose household income is above 250%, scholarships will average 50% of tuition and necessary fees.

### **What is the maximum amount of scholarship a student can receive?**

The maximum equals tuition and necessary fees or the statewide average operating expense per student, whichever is lower.

For the current year, the statewide average operating expense per student is \$12,280.

Students identified as gifted and talented can receive a maximum scholarship amount of \$13,508.

Students identified as English Language Learners can receive a maximum scholarship amount of \$14,736.

Students identified as eligible to receive services under the federal Individuals with Disabilities Education Act can receive a maximum scholarship amount of \$24,560.

### **How will it be determined whether students are benefiting from this program?**

All students who receive scholarships will be required to take the state assessment.

ISBE will select an independent research organization to conduct an annual study examining the year-to-year learning gains of students receiving scholarships and a comparison of these learning gains to public school students with similar demographic backgrounds.
