

Corporate Management Group, LLC announces a Small Business Solution for small to medium sized business. This program was created from the feedback of AHTD members that have requirements but not the volume for meaningful cost savings volume. Small Business Solution provides the same exact benefits as our Full Solution Model but with a monthly retainer of \$ 350.

As always, CMG has no contract. We provide a free initial study and there is no sharing of savings. There is no software installation.

As the new transportation regulations costs are upon us in 2018, CMG suggests a no-cost forensic examination of your transportation expenses.

This innovative approach will provide the necessary data for bench marking excessive expenditures and identifying operational inefficiencies. It will also develop the strategic incentives specific to your business model and requirements.

Please visit our web site or contact me with questions.
