

**Tuesday, February 28<sup>th</sup> 2017 / 8:30 AM – 4:30 PM CST**  
**Grand Prairie, TX (Dallas-Ft. Worth Area)**

**Training includes the following and more:**

- what data is available from cell phone companies, including records of phone calls, geographic data, text messages, multimedia messages, voicemails, and Internet data such as emails, web traffic, and IP data?,
- what data is available on the physical cell phone devices themselves and important considerations for all first responders?,
- introduction to how law enforcement typically uses the data,
- introduction on how to interpret, analyze, map, surveil, archive, and present this extremely valuable data that exists in essentially **EVERY** criminal investigation conducted,
- what real-time surveillances may be conducted on cellular telephones, including traps and traces, pen registers, geolocations, and intercepts known as “wiretaps?”,
- introduction to important considerations regarding the courtroom presentations of cell phone data and,
- introduction to important legal considerations regarding accessing and utilizing cell phone data, and, where the field is headed and how will it impact law enforcement.

**Geocell, LLC has been providing training extensively since 2009 and all instructors are thoroughly experienced and trained practitioners in the field.**

**Geocell has provided over 1,700 hours of formal training to over 7,000 attendees from hundreds of agencies in over 130 training events nationwide.**

**Geocell has also been hired to provide training for the FBI and many other state and local agencies. Extensive references are available upon request.**

**INTRODUCTION TO CELL PHONE INVESTIGATIONS**

**Day 1**

*Introduction: what is the data and where is it held?*

*How the data is typically used to support investigations*

*Introduction to important legal considerations*

*Introduction to very important physical forensics considerations*

*Making the data "intelligent" – what tools are available?*

*Introduction to surveillance possibilities regarding cell phones*

*Intro to courtroom presentations*

*All attendees will be provided a thorough full-color course guidebook.*

*All attendees will be provided a pen and notepad.*

*An additional Geocell course is being offered the same week at the same location, See below for details.*

*All attendees who successfully complete the course will also receive a certificate of training.*

A three-day advanced course will be presented immediately following this course on Wednesday through Friday, 3/1/17 through 3/3/17. A detailed description of the advanced course may be found at [www.geocell.us/advanced.html](http://www.geocell.us/advanced.html). For the advanced course, Geocell provides a networked mobile computer lab where each students is provided a computer for use in the course and interactive software is also utilized that allows for each student to view instructor demonstrations up-close on their computers as well.
