Accountant, Westlands Water District, Fresno

Westlands Water District is recruiting to fill one [Accountant](#) vacancy in the Customer Accounting Department at the Fresno District Office. Attached is the Notice of Job Opening for your information. Applications are being accepted beginning Monday, August 27 through Friday, September 7.

The Accountant will perform a wide range of professional accounting, financial, and allocation accounting duties; including the maintenance, review, and analysis of fiscal records and preparation of timely financial reports to District Management and staff. The Accountant will exercise independent judgment, maturity and integrity in interpreting and applying laws, regulations, and policies to the District's accounting and financial methods and records. This position may provide direction, training, and work review of related staff. A vacancy currently exists in the Customer Accounting Department responsible for the land-based and assessment duties including billing and assessment roll. Immediate and future vacancies will be filled from this eligibility list.

Depending on assignment, the duties of the Accountant position include, but are not limited to, responding and resolving problems related to accounting, budgeting, and water and land billing issues while interpreting District policies and guidelines; processing monthly purchases, sales, rates, and allocation accounting for water and land transactions. This position will also conduct special studies as directed by the Deputy General Manager of Finance & Administration, such as water and land revenue and expense analyses/projection rate setting and cash allocations. The Accountant will have strong math and analytical skills to work with large data sets, and also review and recommend modifications to manual and automated accounting systems and procedures; along with maintaining selected general ledger accounts; reviewing accounting documents to ensure accurate information and calculations and make correcting entries when needed; examine supporting documentation to establish proper authorization and conformance with District Policies, agreements, contracts, state and federal requirements.
