

## Now Hiring

### **Assistant Field Manager, River Partners, Southern San Joaquin Valley**

Do you value clean water, wild rivers, and healthy forests? Are you willing to lend your voice and your hands to protect fish and wildlife? Would you rather plant a tree than write a report? Are you excited to work with a team of ecologists, farmers, and entrepreneurs? If you answered yes to all of these questions, River Partners needs your help.

River Partners is a California-based nonprofit organization dedicated to the restoration and preservation of rivers and floodplain ecosystems. Over the last 18 years, our organization has restored over 8,000 acres of flood-prone farm fields into forests teeming with wildlife. In doing so, we have planted over 2 million native trees and shrubs. Our staff is committed to getting things done. Since 2010, we have purchased \$33 million worth of real estate throughout California. Once we acquire property, we implement native habitat restoration that benefits target species. After restoration is complete, River Partners donates the property to State and federal land management agencies to be preserved and protected in perpetuity. We believe in achieving results that directly benefit people and the environment.

This position assists the Regional Director and Restoration Field Manager to manage and implement riparian habitat restoration projects in the Sacramento Valley. This is a full-time position – approximately 10% of time will be spent in the Turlock Office assisting with grant and contract administration and 90% of time will be spent in the field assisting with restoration implementation duties.

Email (1) cover letter (2) complete CV/resume, and (3) references to Mona Dagy at [info@riverpartners.org](mailto:info@riverpartners.org). Please put Sac. Valley Asst. Field Manager – “Your Name” in the subject line. No phone calls please.

## **Dairy Advisor, University of California Agriculture and Natural Resources, Fresno County**

The Area Cooperative Extension (CE) advisor for dairy will conduct a locally-based extension, education and applied research program focused on Dairy Science. The CE advisor will provide programs across a spectrum of industry issues as they relate to dairy production systems in Fresno and Madera Counties and will address production issues and sustainability in an integrated approach that considers economic viability and conservation of natural resources including land use, air, water, and energy. The CE advisor will work collaboratively with UC ANR academics to address critical issues include reproduction; herd health and related human health issues linked to food safety; nutrition, including feedstuff quality and availability; animal welfare; water quality linked to the use of manure and lagoon water on cropland; air quality impacts linked to the storage and preparation of dairy feeds; and the future implications of animal health emergencies such as foot-and-mouth disease.

The applicant should possess an earned master's degree, or other advanced degrees, in disciplines such as Dairy or Animal Science or a closely related field, is required by the appointment start date. Excellent written, oral and interpersonal communication skills are required. Demonstrated ability in applied animal science research and extension experience is preferred. Skills to communicate effectively in both English and Spanish are desirable.

For full position vacancy announcement and UC application, please visit our website at [http://ucanr.edu/Jobs/Jobs\\_990/](http://ucanr.edu/Jobs/Jobs_990/). For full consideration, application packets should be submitted in their entirety no later than July 20, 2018 to: [anracademicsearch@ucanr.edu](mailto:anracademicsearch@ucanr.edu). Please refer to position AP#14.08. For questions regarding this position, please contact LeChé McGill at [lkmcgill@ucanr.edu](mailto:lkmcgill@ucanr.edu).
