Assistant Production Manager, Greater Sacramento area

A successful family owned nursery is seeking an Assistant Production Manager to join their team. This is a critical role for monitoring and managing plant health so a PCA or CCA would be helpful, but is not required. This position will be involved in nearly all areas of production and as such, will be operating equipment, checking fields and supervising crews.

The ideal candidate will have an educational background in horticulture or plant science and experience in production agriculture. Knowledge of nursery stock and orchard production systems would be especially helpful. Working Spanish would be helpful, but is not required.
