

Now Hiring

Technical Support Specialist

A growing agriscience company is seeking a technical support specialist with dairy nutrition expertise to join their California team.

The ideal candidate will have been working in dairy or ruminant nutrition and have strong technical expertise in nutrition. An advanced degree is preferred. Strong communication skills are required as this person will be communicating direct to customers, working closely with colleagues and making more formal presentations as needed. This position will be doing some sales, but also providing the existing sales team with technical support/assistance as needed. The successful candidate will mostly be home based, but will ideally be located in the central valley. Salary DOE.
