ASID advances the profession and communicates the impact of interior design to enhance the human experience.
ASID
Founded in 1975, ASID is the oldest, largest and only multi-disciplinary professional organization for Interior Designers, Interior Design Students and the manufacturers and suppliers who support the profession. The rich, vibrant history of the organization goes back to the founding of its predecessor organizations, the American Institute of Interior Designers (AID) and the National Society of Interior Designers (NSID). We collaborate with others to promote the value of interior design. We prepare our Members to excel in a dynamic and evolving profession. Through education, knowledge sharing, advocacy, community building and outreach, we strive to advance the interior design profession and, in the process, to demonstrate and celebrate the power of design to positively change people's lives. We lead Interior Designers in shared conversations around topics that matter: from evidence-based and human-centric design to social responsibility, well-being, and sustainability. We showcase the impact of design on the human experience and the value Interior Designers provide.
