

Ring's Manufacturing, (BLUEGUNS) Donates a Police Harley Davidson Motorcycle to the Palm Bay Police Department

Palm Bay Police: BLUEGUNS, Ring's Manufacturing Inc., located on East Drive in Melbourne donated funds to the Palm Bay Police Department to buy a fully equipped Harley Davidson Police Motorcycle. The owner's Carl and Shirley Ring said, "We want to give the local law enforcement the tools they need to do their job and make the community safer". Rings Manufacturing makes "Blueguns" which are used to train military, law enforcement as well as movie props. These guns are handmade and are exact replicas of the real ones making them crucial in the safe training of these agencies.

The blue color is so they are easily identified as training props and not real guns. This is not the first time that this 27 employee company has donated to local law enforcement agencies. Chief Mark Renkens said, "I am very appreciative and honored by their donation. We will use this motorcycle to educate and make the roadways safer in Palm Bay. We will place a lot emphasis on pedestrian and bicycle safety/enforcement."

Palm Bay currently has two police motorcycle, which were donated by the Brevard County Sheriff's Office. Both of these Honda's are in need of replacement. You will see the new Harley Davidson Police motorcycle hitting the streets of Palm Bay in approximately 8 to 10 weeks.
