## *Mission*

The Veterans Day of Prayer is an annual event created to inspire communities to pray for our military, veterans and their families and to mobilize spiritual support on both a local and global level.

## *Vision*

We believe that it is God's vision to unite passionate believers who are dedicated to the cause of helping veterans become spiritually whole and living at their highest potential. We seek to motivate and inspire veterans by providing an atmosphere that encourages our constitutional right to gather in prayer.

## *Values*

We believe that what we do should be guided by our faith, as we remain committed to the veteran community. We are committed to a culture of teamwork and collaboration in order to better serve our veterans according to their individual needs. We believe that hope comes through a personal relationship with God and that each veteran's individual needs are known by Him.

## *Purpose*

The Veterans Day of Prayer is meant to inspire a personal relationship with God as we pray for veterans and their families. It is our goal to connect veterans with organizations and individuals who are equipped to help them advance in every area of life—spiritually, professionally and relationally.
