

55th

*ECAA's 55th Anniversary  
Convention & Technical  
Training Day*

hosted by Provincial President and his wife

*Darrell & Elsie Castor*

May 25th - 28th, 2017 | The Rimrock Resort Hotel, Banff, AB

55th

## ACCOMMODATIONS

### ECAA SPECIAL ROOM RATES

STANDARD 2 QUEEN \$218.00 + GST

STANDARD 1 KING \$233.00 + GST

PREMIUM 2 QUEEN \$268.00 + GST

### THE RIMROCK RESORT

The Rimrock Resort Hotel is pleased to offer exclusive accommodation in a unique location. Offering 343 guestrooms, they have something for everyone. With warm contrasting earth tones and dark wood accents, all of the guestrooms are complimented by the natural beauty surrounding the hotel.

## DEADLINE FOR HOTEL RESERVATION APRIL 15TH, 2017

*Reservations can be made by calling 1-888-RIMROCK (746-7625)  
Please ensure to reference ECAA or Electrical Contractors Association  
of Alberta when booking to receive this rate before April 15th, 2017.  
After this date these rates may not be available.*

## PROGRAM

### THURSDAY, MAY 25TH, 2017

<i>CECA Board of Directors Meeting</i>	<i>to be confirmed</i>
<i>Golf Tournament (Banff Springs Golf Course)</i>	<i>2:00 pm</i>
<i>Registration</i>	<i>7:30 - 8:30 pm</i>

### FRIDAY, MAY 26TH, 2017

<i>Registration</i>	<i>7:00 am</i>
<i>Technical Training Day</i>	
<i>Welcome Breakfast</i>	<i>7:00 am</i>
<i>Training Day Sessions</i>	<i>8:00 am</i>
 <i>Welcome Reception</i>	 <i>6:30 pm</i>
<i>Brewsters Mountainview Barbeque</i>	
<i>Western theme with live entertainment. Includes transportation</i>	

### SATURDAY, MAY 27TH, 2017

<i>PEC Annual General Meeting</i>	<i>7:30 am</i>
<i>Breakfast</i>	<i>7:45 - 8:45 am</i>
<i>Keynote Speaker: Robin Esrock</i>	<i>9:00 am</i>
<i>Spousal Activity</i>	<i>10:15 am</i>
<i>High Tea &amp; Ghost Tour with Elsie Castor (busses leave)</i>	
<i>Annual General Meeting</i>	<i>10:15</i>
<i>am</i>	
<i>Awards Luncheon</i>	<i>12:15 pm</i>
<i>Labour Annual General Meeting</i>	<i>2:00 pm</i>
<i>Associates General Meeting</i>	<i>2:00 pm</i>
 <i>President's Gala</i>	 <i>Cocktails 6:00 pm</i>
<i>Featuring Trevor Panczak &amp; Roughstock Band</i>	<i>Dinner 7:00 pm</i>
	<i>Dance to follow</i>

*\*Optional activities will be available. Details to follow.*

### SUNDAY, MAY 28TH, 2017

<i>Breakfast with speaker</i>	<i>9:00 am</i>
-------------------------------	----------------

55th

## WELCOME RECEPTION

### BREWSTER'S MOUNTAINVIEW BARBEQUE

Located just ten minutes from downtown Banff, Brewster's MountView Barbecue is a corporate event and reception facility that furnishes a truly western experience. Inside our Brewster "Donut" tents, a central bonfire provides warmth and atmosphere to dance the night away in country and western style.

Join President Darrell & Elsie Castor as we kick off Convention at Brewster's Mountainview Barbecue for our Welcome Reception.

This western theme event will include a delicious barbecue dinner and entertainment by Trevor Panczak.

55th

## KEYNOTE SPEAKER

### ROBIN ESROCK

Having explored over 100 countries on 7 continents, bestselling author and TV host ROBIN ESROCK helps us break through the personal and professional boundaries that often stand in our way. He speaks on the challenges of innovation, transformation, recognizing potential, and achieving Big Hairy Audacious Goals. Drawing on his fascinating adventures, Esrock inspires audiences with stunning visuals and stories alongside positive, practical strategies.

Robin Esrock's stories and photography have been published in major publications worldwide, including The Chicago Tribune, National Geographic Traveller, Toronto Star, Sydney

Morning Herald, South China Morning Post, MSN, Mental Floss, and The Guardian. He has been profiled as a writer and adventurer by 60 Minutes Sports, CNN, MSNBC, the CBC, Associated Press, The Wall Street Journal, CTV, and many others. Creator and co-host of the 40-part TV series Word Travels, Esrock's on-air adventures have been broadcast in over 100 countries and 21 languages by Travel Channel and National Geographic International.

Esrock is the bestselling author of The Great Canadian Bucket List, which has been at the top of the Canadian Travel, History, and Arts and Photography chart on Amazon.ca for several years, as well as The Great Global Bucket List, which hit stores in September 2016. He was Master of Ceremonies for the prestigious Explorer's Club Annual Dinner in New York, sharing the stage with the likes of Buzz Aldrin and Ken Burns, and has delivered enthusiastically received keynotes to corporate, government, education, medical, tourism, and real-estate conferences.

55th

## TRAINING DAY PRESENTERS

### GREGORY BRIGGS

Greg Briggs is a Field Application Specialist for the Eaton Bussmann Division. He has a diploma in Electronics Engineering Technologies from the Southern Alberta Institute of Technology. In his current role, he specializes in circuit protection for electrical distribution systems and component protection for assemblies. Over the past 18 years, he has been with Eaton and has experience in designing, testing and producing low voltage distribution and control products.

#### *Understanding Selective Co-ordination*

- What is selective coordination?
- Why is it important to selectively coordinate a system?
- When is a selectively coordinated system required?
- How do I achieve selective coordination?

These questions and more will be answered as we explore the intricacies of selective co-ordination with both circuit breakers and fuses from the perspective of the Canadian Electrical Code.

### BILL BRYANS

Bill Bryans has 20+ years of technical and strategic policy experience for standardization in Canada and Internationally, having been Head of Delegation with several ISO and IEC committees, including the IECEE compliance scheme. Currently Bill is Vice President of Technical Services – Electrical, at Electro-Federation Canada, assisting members with the Canadian Electrical Code, National Building and Energy Codes, product standards and industry policy issues. Previously he was the Standards Council of Canada Senior Program Officer for IEC and JTC1, with the bulk of his career at IBM Canada including being contracted to lead their Corporate Product Safety and standardization Program.

Bill also serves on or has chaired numerous CSA technical and policy committees for electrical product safety, EMC, energy efficiency, and ISO management committees for quality and environment. He is a recipient of the International IEC 1906 and CSA Award of Merit.

#### *Re-installation Safety Risk of "Sub-standard" Moulded-Case Circuit Breakers in Canada*

Moulded-Case Circuit Breakers (MCCB) and Switches are a critical life-safety feature in every building's load center. However, once they have been subjected to adverse conditions, such as smoke, water, or similar environmental damage, or impact of faults at current levels greater than those for which the device is rated, they should be permanently removed from the electrical installation and destroyed. Unfortunately, that does not always happen, placing everyone living, working or invested in that subsequent installation at potentially greater safety and financial risk. Equally, MCCB and Switches that have fraudulently had their ratings and other labels falsified pose the same increased risks.

### WAYNE BUDGE

Wayne Budge is the Manager, Association Partnerships with Federated Insurance. In his 34 years with the company, Wayne has worked in Claims, Corporate Training, and with Associations. Most recently, he was the Senior Account Representative responsible for Association relationships in Western Canada, including of course, the Electrical Contractors Association of Alberta.

#### *Business Insurance & Risk Management*

Wayne seeks to dispel the myth that insurance has to be boring through his presentation covering a range of ideas, trends, and observations from the world of insurance and risk management. His hope is to give you a few things to think about and ideally, some that you can put into practical application.

55th

## TRAINING DAY PRESENTERS

### LARRY CANTELO, PEC

Larry has been involved in the electrical industry since 1974. Following 27 years in industry he worked as an instructor at NAIT for 12 years. In addition to being a Red Seal and Master electrician Larry holds a degree in Adult Education and certificates in construction technology, adult education and business management. He has sat on numerous industry committees for organizations including Skills Canada, the EIAA and the Safety Codes Council. Larry is the current chair of the PEC Education Standing Committee. He currently works part-time as a self-employed electrical trainer.

#### *Energy Storage: The Next Big Thing*

For many years, we have been hearing about the benefits of green power and renewable energy. No doubt there are many benefits to both. What is often not mentioned in the conversation is what happens when the wind is not blowing, in the case of wind turbines; or the sun is not shining, in the case of solar PV installations. In both cases, the traditional power producers, coal, natural gas, etc., must produce all the energy required by the grid. In recent years, in many parts of the world, we have seen multiple forms of energy storage technology emerge which help to bridge the gap between peak demand and renewable energy production. In this presentation, Larry will provide an overview of many of the energy storage technologies being installed throughout the world.

### ROBERT COLCLOUGH, PEC

Robert has been running his own Quality Consulting company (B.Q.S. Inc.) for over 6 years which provides training and support in respect to Quality for Companies and Organizations. From rebuilding Quality Management System (QMS), helping with turnover documentation, to just providing tips to help improved their QMS. B.Q.S. Inc looks to help those companies who do not want a full time Quality Manager on staff but still want to improve their systems in order to take their company to the next level. Robert is a journeyman Welder (Red Seal) journeyman Master Electrician (Red and Blue Seal w/ P.E.C.) Level 2 CWB. He has taught at NAIT (Welding), BCIT (Electrical), as well as Electrical Industry Training Centres of Alberta (EITCA) and ECAA.

#### *Understanding Project Quality & Avoiding Common Pitfalls*

Past presentations have discussed the philosophy of Corporate Quality Management. This discussion will be focused on running a quality program on a specific job site. This would be great for smaller companies who are starting to deal with clients with more advanced quality requirements and programs or for Managers of larger companies who want a little better understanding of some issues their Projects face in regards to Quality requirements. Topics discussed will be: Understanding I.T.P.'s (How to use them and why), preparing turnover documents, importance of client specifications and managing information as well as how to avoid common pitfalls and get your hold backs released from your clients quicker.

### JOEL FUNDYTUS

Joel is a Journeyman Electrician and has been teaching for the Electrical Industry Training Centre (a joint initiative between the Electrical Contractors Association of Alberta and IBEW LU 424) for the past 7 years. He is currently involved in new and ongoing curriculum development for a variety of training courses including Photovoltaic Installation, Photovoltaic Design and the Electric Vehicle Infrastructure Training Program. He also holds a Photovoltaic Systems certification through the CSA group.

#### *Photovoltaic Systems*

Alberta has one of, if not the best resource for solar in the country, sunlight. This presentation will familiarize the attendee with the main components that make up a photovoltaic system, basic system design requirements, Canadian Electrical Code considerations, as well as some of the driving factors behind the adoption of photovoltaics.

55th

## TRAINING DAY PRESENTERS

### GLEN GREEP, PEC

Glen is the President of Variety Electric Ltd. a Small Electrical company that's been in business serving the Calgary community for over 31 Years. Variety Electric has been a member of the ECAA for 21 of those years. He became an Electrician Journeyman Certificate & Red Seal in 1992. Glen received his Diploma from Mount Royal College 1994 majoring in Financial Management. Glen is currently a CME and became a PEC #29 in 1997. In 2013 he received his Achievement in Business Competency (Blue Seal). Glen and his company have become proficient in the following areas - Industrial Installations, Integration, Commissioning & Maintenance, Business administration and Job Control.

#### *Machine Safety Training*

The focus will be on understanding the purpose and relevancy of Machine Safety. We will look at the challenges and liabilities of implementing and/or not implementing machine safety into an industrial facility equipment. **We review the following elements of Machine Safety:** Safety assessments; Regulations in Alberta (Liabilities); Safety Equipment and components; Safety Culture; Challenges with Implementation and Integration.

#### *Job Control*

Focus will be on the challenges for running a profitable electrical business. Looking at effective control of time and material for both small to large business models. Challenges and Risks associated with growth and tools that can help keep a company grounded through transition. **We review the following elements of Job Control:** Difference between Efficiency and Effectiveness; Difference Between Job Control & Project Control; Old School Job Control vs New Job Control; Job Control for Different Management Styles; Job Control Responsibilities; Time Management and Control; Material Management & Control; Knowing your costs & your margins; Working with your competition not against it.

### ALAN HUMPHRIES, PH.D

Dr. Alan Humphries is an Assistant Deputy Minister and the strategic executive advisor on procurement modernization for Alberta Infrastructure. Reporting to the Deputy Minister he is responsible for all department procurement activities for construction and construction related services. This comprises of overseeing more than 1100 contracting activities valued at approximately \$900 million each year. Alan has been with the Alberta government for 28 years, the last 12 years being in various executive leadership roles. Dr. Humphries is a professional engineer, and holds a Masters degree in Civil Engineering from the University of Alberta and a doctorate in engineering from Cranfield University in the U.K.

#### *Doing Business with Alberta Infrastructure*

This industry seminar presents an overview of Alberta Infrastructure's Tendering and Procurement processes. The session reviews the types of projects we do, how to find out about upcoming opportunities, submitting bids, and the contract requirements for doing Alberta Infrastructure projects. The session covers: Types of projects; Tendering Process (including electronic bidding) – Do's and Don't ; Contract award requirements (Insurance, Bonding, COR); Legal Requirements; Prompt payment.

55th

## TRAINING DAY PRESENTERS

### RENE LEDUC

President of MAREX Canada Limited, a consulting and inspection company specializing in 'hazardous locations', electrical Safety Codes construction inspection and compliance monitoring, and electrical regulatory management. 21 years service with the Alberta Government; 9 years as the Technical Administrator/Chief Inspector for the electrical discipline at Alberta Municipal Affairs. Responsibilities include: Participation on local, national, and international Codes and standards development forums; Technical and legislative policy development; Establishing and maintaining close working relationships with industry; Other responsibilities with Municipal Affairs include program administration, special projects, inspections, and training. Experience includes 16 years in electrical construction/maintenance and 2 years in the field of Earth Resources (coal) exploration and technology.

#### *Overview of CEC Section 10 Changes*

This presentation will cover the new format and structure being proposed for Section 10. It will also address the major changes that are anticipated as a result of the re-write initiative for Section 10.

#### *What's New for 2018 Canadian Electrical Code*

This presentation will cover the already approved changes for the 2018 CE code. It will also cover the anticipated changes being considered at the June 2017 meeting of the CE Code, Part I.

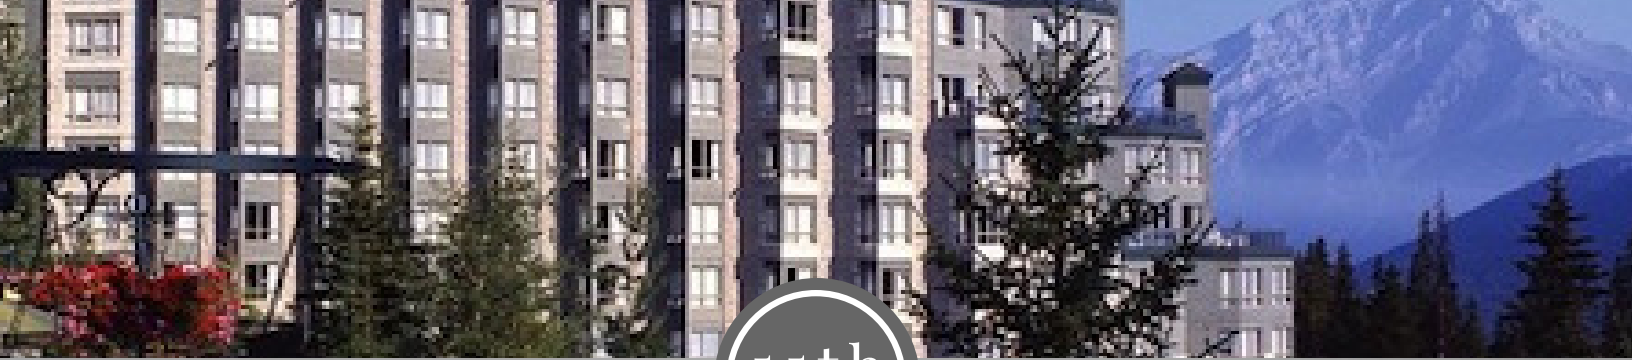

### CAROL MACLEOD

In a career that spans 30+ years, Carol MacLeod is recognized for her expertise in shaping industry-driven workforce development solutions. In her role as founding Executive Director of the National Electrical Trade Council (NETCO), Carol provides national leadership in promoting national standards, apprenticeship and continuing electrical training with a focus on Red Seal electrical trades. Carol has a Master of Education degree from Harvard University. She also has a B.A. (Communications) and Certificate of Labour-Management Relations from the University of Ottawa. Carol lives in Ottawa and is an apprentice polo player with her horse Secret.  
<https://ca.linkedin.com/in/carolmacleod>

#### *NETCO Green Skills Training & Certification*

The National Electrical Trade Council (NETCO) is a leader in the development and ongoing stewardship of Green Skills Training & Certification for journeyman electricians installing and maintaining solar photovoltaic systems and electric vehicle supply equipment. NETCO jointly developed two national certification programs in partnership with CSA Group (2011) and the Electric Vehicle Infrastructure Training Program™ in the USA (2013) which serve as third-party certifying bodies. This presentation goes under the hood to highlight topics such as development milestones, program rigour, certification prerequisites, curriculum design and maintenance, certification exam scheme, training delivery across Canada, value to the electrical industry and advocacy.

55th

## TRAINING DAY PRESENTERS

### PIERRE MCDONALD

Pierre McDonald is the Senior Regulatory Representative for Underwriters Laboratories of Canada (ULC). Pierre brings to the table over 30 years' experience in electrical installations, electrical codes and safety services. Prior to his current position with ULC, Pierre was the Chief Electrical Inspector for almost 6 years with the Province of Alberta and he spent 17 years before that as an Instructor and Assistant Program Head at the Northern Alberta Institute of Technology, Electrical Programs.

Pierre holds a Master Electrician certificate, a Power System Electrician Certificate, a diploma in Electrical Engineering Technology and is registered with ASET as a Certified Engineering Technologist.

#### *Equipment Approvals*

This Presentation will cover Electrical Product Certification and Field Evaluations recognized in Alberta with emphasis on:

- Product Certification vs. Field Certification vs. Field Evaluation
- Standards Council of Canada Accreditation and Provincial/Territorial Acceptance
- Canadian Standards used including the Scope of Field Evaluation Documents
- Expected Markings, Labels and limitations
- UL/ULC Online Directory, Certification Marks and holographic labels
- Product Spec

### JUSTIN POCKAR

Prior to joining The City of Calgary Justin worked in consulting specializing in sustainable building, completing several projects certified to LEED Gold or better. His involvement on projects encompassed a wide range of roles, including design, technical review, and involvement with student design work through the University.

As Energy & Environment Coordinator, current responsibilities include the administration and technical aspects of integrating sustainable design features and policy in the built form. Active participation with the National Research Council of Canada (NRC) has led to roles as reviewer and author of the National Energy Code of Canada for Buildings (NECB), and membership on the Standing Committee for Energy Efficiency in Buildings. Additional work on behalf of The City includes authoring volumes for both ASHRAE and BIM Canada.

#### *Energy Codes: Just a little more than electricity*

When the Province of Alberta adopted the National Energy Code of Canada for Buildings (NECB), it put in place the first energy efficiency standard for commercial buildings in our province's history. This presentation will cover the content of the NECB, its relationship to electrical components and design, and implications for electrical contractors and designers.

55th

## TRAINING DAY PRESENTERS

### STEPHANIE WALLACE

Stephanie has been with the Canadian Construction Association's Gold Seal Program since 1998. She began as the assistant to the director of administration and has risen to the post of Program Manager. Stephanie's expertise lies in program development, guideline review and customer service.

#### *Gold Seal Certification Expect Excellence: The Value for You and Your Team*

The Gold Seal Certification (GSC) program has been the industry's most trusted, valued and reliable certification for construction management. GSC credentials demonstrate your commitment to the profession and your expertise through certifying education, experience and competency. Industry recognized and developed, GSC ensures that both you and your construction projects excel. This session will guide you through navigation of the Gold Seal website as well as the certification process. Program news and updates will also be provided.

## SPOUSAL ACTIVITY

Pinkies Up! Join Elsie Castor at the Fairmont Banff Springs with a menu steeped in tradition and designed to create the most memorable of Fairmont experiences.

The Rundle Lounge takes on England's most beloved ritual to new heights, with 12 finest loose leaf teas accompanied by an assortment of Victorian scones, dainty finger sandwiches and more.

A word to the wise? The most essential ingredient to High Tea is good conversation. Get steeped with Elsie!

*High Tea*

*With Elsie Castor*

## Ghost Tour

From the famous Bride to Sam the Bellman; join us on a Ghost Tour of the Fairmont Banff Springs and see where some of the oldest 'residents' reside. **THE BRIDE:** Hotel staff and guests alike have reported seeing a veiled figure moving up and down the stairs, or seeing a figure in a wedding dress dancing in the ballroom upstairs, pining for the first dance with her husband that she never had.

**SAM THE BELLMAN:** After his passing Sam has been known as the helpful ghost at the Fairmont.

On this tour you will hear the stories of The Bride and Sam the Bellman and much more!
