

Government Contracting Basics

Getting Started in Government Contracting

The federal government spends \$500 **billion** in contracts every year. Small businesses will be awarded 23% of these dollars. State and Local agencies have similar objectives.

This entry-level class will help you get started!

Geared toward small businesses across any industry, this class is best suited for those with limited to no government contracting experience or those seeking a refresher on the basics.

Class will follow the Governor's Marketplace event held in the same location.
