

Clearshield® Pro Installation Techniques

Solar Gard® Clearshield® Pro Installation Techniques is a comprehensive, hands-on one day installation workshop covering all the basic and advanced skills and techniques you need to successfully install the paint protection film to cars and trucks. The curriculum is highly interactive and provides for necessary one-on-one attention to develop both your understanding of the product and your hands-on skills.

Some of what you will learn during this course includes:

- Work intensely on the techniques used to install Clearshield Pro on car models with the latest tools and accessories.
- Learn how to conquer paint protection film installation challenges, such as compound curves, dealing with contamination, etc.
- Discover the latest computer cutting technology designed to improve productivity, reduce waste and increase profits.

This course is recommended for window film dealers interested in building upon their paint protection film knowledge. Prior window film experience is not required.

Prerequisite: No prerequisite course is required.

Enrollment Fee: \$495.00 per person.

Each attendee will receive:

- Product Information
- Solar Gard Certificate of Completion for "Solar Gard Clearshield Pro Installation Techniques"

How to enroll:

Fill out the registration form and email it to techservices@solargard.com.

A **confirmation will be sent to each registrant** securing your spot in the class. If you do not receive a confirmation, or require additional information, please contact your Solar Gard Service Center or Sales Representative or email at techservices@solargard.com!

Payment must be received at least two weeks prior to event date.
