

Developing Automotive Window Film Skills

Solar Gard® Developing Automotive Window Film Skills installation workshop is a comprehensive, hands-on two day training course covering all the basic skills and techniques required to gain a full understanding of proper installation practices. The curriculum is highly interactive and provides for necessary one-on-one attention to develop your automotive installation skills.

Some of what you will learn during this course includes:

- Jump right into cleaning windows, cutting film and practicing different installation methods for side and rear glass.
- Work intensely installing window film on a variety of car windows - old and new -with the latest tools and accessories.
- Learn how to conquer installation challenges, such as dot matrix, integrated rear window antennas, one-piece rear window and splicing.

This course is also recommended for window film dealers interested in building upon their automotive window film installation skills. Prior window film experience is not required.

Prerequisite: No prerequisite course is required.

Enrollment Fee: \$595.00 per person.

Each attendee will receive:

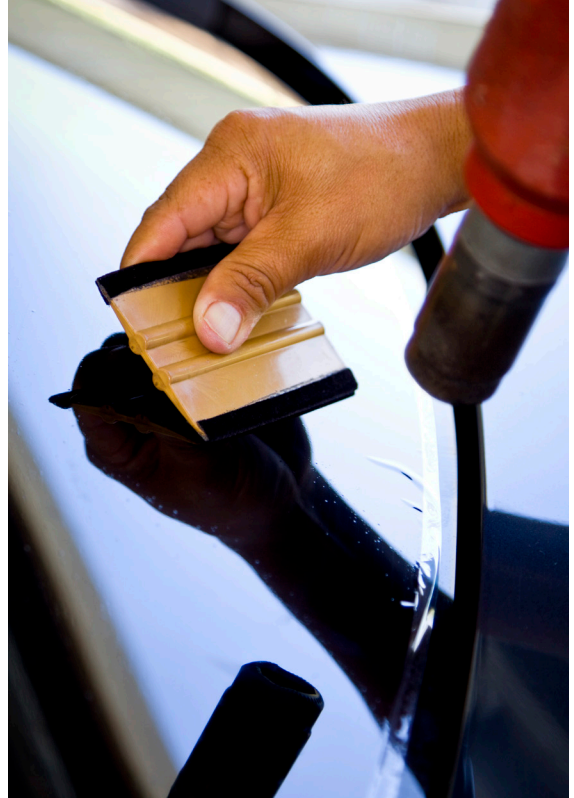

- Solar Gard Certificate of Completion for "Developing Automotive Window Film Skills"
