Beginning next week any 1st grade student who completes Smarty Ants can log into AchieveBoost to begin working on reading comprehension. Students will log into Clever and select the Achieve3000 icon instead of the Smarty Ants icon. They will automatically take a pre-test to place them into the program at the correct level and will then be able to begin reading articles.

The document below can be used as a self-guided tour for any teachers moving students from Smarty Ants to Boost.
