![i-Ready logo]

Welcome Back Teachers!

We are excited to partner with you for another year, and happy to share that **your i-Ready account is now active!**

Also, a great new addition this year for RTI[2] is the Teacher Toolbox, and our Toolbox account is NOW active! Instructions for how to register are below.

i-Ready

i-Ready Diagnostic Window

The i-Ready Diagnostic window will be open **Monday Aug 14th – Friday Sep 1st.** Please plan to assess all students by Sep 1. Students will then be able to move right into their i-Ready online instructional lessons.

Login Information - Students and Teachers

This year, all teachers and students will login via our single-sign-on system, Clever, to allow a streamlined login process to multiple programs (Clever and SCS will be sharing information regarding best practices and FAQs for using Clever this year).

All teachers and students MUST access i-Ready directly from the Clever Instant Login Portal. The SCS Portal can be accessed at school or at home via this URL – **https://clever.com/in/scs.** ***Note – Teachers can find their students' Clever usernames via the Clever portal. Clever will also be sharing instructions for how to pull these Clever logins from PowerSchool. Check the Clever portal for more information.**

    Teacher Logins
    You will login exclusively at https://clever.com/in/scs with Clever credentials:
- **Username:** school username
- **Password:** school password

    Student Logins
    Students will login exclusively at https://clever.com/in/scs with Clever credentials:
- **Username:** Student ID (6-digit number from PowerSchool)
- **Password:** Date of Birth, written as 8-digits in format MMDDYYYY (example: 09082006)

Important Note on Class Setup for August 2017:

For the timeframe of 8/14/17 to approximately 9/4/17, PowerSchool will *not* be fully populated with SCS sections/classes. Therefore, you and your students will be *temporarily* placed into grade level instructional groups by school in i-Ready. We ask that you please focus on the following during this timeframe:

1. Have students complete the i-Ready Diagnostic Assessment.
2. Monitor Diagnostic completion using the Class Profile Report (Reports Tab > Class Reports sub tab > choose the appropriate *instructional group* and grade level and sort alphabetically by last name to monitor who has/hasn't completed testing).

3. Once testing is completed, students can immediately begin working on their automated online instructional path.
4. In early September, typical SCS classes from PowerSchool will be synced and you will be able to pull all data for these classes you are used to seeing in PowerSchool.

Teacher Toolbox

- **Teacher Toolbox (Math) access has been granted for <u>all</u> Shelby County Admins and Math Teachers; this is a tremendous RTI^2 tool available to you this year!**
- All staff can register and login by doing the following:
    1. Go to www.teacher-toolbox.com
    2. Click "Register Now"
    3. Create an account (note, this is different from your i-Ready account) with your information in 3 simple steps and click "Finish."
    4. Check your email and activate your account by clicking on the link. Then log in using your email address and the password you created above in Step 3.
    5. Enter the access code **shelby1718** and click "Submit."

Lastly, be sure to remember i-Ready Central is available with various resources for support, and check the Curriculum & Instruction SCS homepage for some key i-Ready documents regarding common i-Ready FAQs, as well as a Best Practice Guide for using i-Ready and the Toolbox for RTI2.

Here's to a great year!

Regards,
The i-Ready Team
