

Accelerated MS Degree Program for Teachers of Elementary Mathematics

The River City Partnership (a collaboration between the University of Memphis and Shelby County Schools) seeks to strengthen Memphis' teacher talent pipeline. As part of this alliance, the College of Education at the University of Memphis is prepared to offer an accelerated program that will allow for the completion of a Master of Science Degree in Instruction and Curriculum Leadership with emphasis in Elementary Mathematics.

The purpose is to design a comprehensive program of study that prepares current SCS elementary teachers for success in the implementation of the Eureka Math curriculum and effectiveness in improving student achievement in mathematics. Elementary teachers who are interested should attend an informational session on **Thursday, February 22, 2018 at 5:00pm in the Teaching and Learning Academy (TLA) Auditorium** to gain more insight about this wonderful opportunity.

If you have questions or concerns, please contact Dr. Kemmashela Conner, smithkt@scsk12.org.
