

Nursys e-Notify by CA BRN for CA Nurse Employers

Greetings Community Partners,

Recently you may have heard me speak about Nursys e-Notify, an online employer notification system that provides discipline and licensure data directly to your organization (i.e. Human Resource Department) as the information is entered into the Nursys database by the Board of Registered Nursing (BRN). This is a system that the BRN is making available to California employers. It is the BRN's data that powers Nursys e-Notify for California employers. This system provides a public protection service from the BRN to California nurse employers (**FREE OF COST**). Currently, there are 267 nurse employers from California that have enrolled 37,249 nurses. Some of the employers with highest nurse enrollment in Nursys e-Notify include Kaiser Permanente, UCSF Medical Center, Torrance Memorial Medical Center, LA County DPH Human Resources, and many more. To learn more about e-Notify please see the following information below:

- [Video explaining Nursys e-Notify for Institutions](#)
- [Link to the Nursys eNotify Web Application](#)

For further questions regarding this system please feel free to contact:

Dennis Roy (Nursys E-Notify Project Consultant for NCSBN)
