

## Preparation for the ACT

There are many things students can do to prepare for the test. For several years, we have offered optional ZAPS ACT prep twice a year. This course has always run on a Saturday, and we generally have about 50 students who participate between the two sessions. The current cost is \$90.00 per student, which is paid by the student. Students have always provided positive feedback regarding the training.

### ZAPS training for all interested Juniors

On Thursday, February 8th. We are subsidizing the training at a discounted rate so that students will only be charged \$20.00. The training will run from 8:30 am -2:00 pm in the AP room. Our hope is that by moving to a school day and reducing the cost, we will see a significant increase in the number of participants. We will also offer assistance for those experiencing financial hardship. Juniors and their parents will receive a letter regarding the ZAPS training and registration in early January. We encourage all juniors to participate.

### Method Test Prep

Method Test Prep engages students in content specific preparation, whereas ZAPS focuses on test taking strategies, timing strategies, and more general ACT prep. Students have been working in Method Test Prep in their core area classes. Students can access Method Test Prep from any computer. Please encourage your students to show you what test prep they have been doing and to continue their test prep from home.

Thank you for your help in preparing our students!
