

# PROPRACTICE

**Commitment to putting physicians and patients first, so you have the piece of mind that you've provided the best care possible.**

**Commitment to stabilizing your practice's financial health, so you don't have to choose between paying your employees and funding your child's college fund.**

**Commitment to reducing your administrative hassles, so you can get home earlier and enjoy your family.**

ProPractice was developed by the El Paso County Medical society exclusively for EPCMS members. It's a part of our vision to make Colorado Springs the best place in America to practice medicine and receive medical care by 2020.

ProPractice shares your commitment to your patients and to the reason you became a physician: delivering the highest standard of care with the most up-to-date methods. Our professionals at ProPractice understand the unique challenges faced by medical professionals in this rapidly changing environment of increasing regulations and reporting requirements.

ProPractice offers small-to-medium sized practices the resources to compete effectively and operate efficiently so you can do what you do best, take of care of patients.

PRACTICE MADE PERFECT

## A STRONG COMMUNITY

**ProPractice is an advocate for physicians, promoting and developing the science and art of medicine,** including providing physicians with cutting edge support options that free them from the business of medicine so they can focus on patient care.

ProPractice is committed to providing comprehensive support to Pikes Peak Region physicians to ensure they can better meet their personal, professional, and family goals.

ProPractice is committed to ensuring a strong, effective medical community in the Pikes Peak Region. By working

with our membership to ensure the highest ethical standards and best practices within the local profession, ProPractice can help ensure a physician-driven, supportive, and accountable community committed to the highest standards of care.

ProPractice is committed to helping you navigate a rapidly changing environment of increasing regulations and reporting requirements.

ProPractice puts physicians at the center of our health care community.

As the authoritative voice for our medical community, ProPractice is uniquely positioned to work with local and state government and business leaders to ensure the Pikes Peak Region becomes the best place in America to practice medicine and receive medical care.
