Concert at OSilas Series

Sunday, March 19

Please join us for Concerts at OSilas, a new concert series that will feature the Concordia Conservatory faculty in fresh and innovative programming inspired by art exhibitions in the 2016-17 season at the Concordia College's OSilas Gallery.

Come to see the exhibition and stay to hear the music!
In this series, the two "arts" share the same historical, social, and philosophical themes, while approaching them from different angles. Our musicians will talk briefly about the music and explain the pieces they will perform in relation to the exhibition theme and works.
