## Empowering Individuals with Developmental Disabilities to Achieve Excellence

Since 1971, Tierra del Sol has become a recognized leader in developing innovative, accredited workforce development services that support adults with developmental disabilities. Each day, Tierra empowers 670 individuals across the San Fernando, San Gabriel, and Santa Clarita Valleys, to realize their greatest human potential.

We are more than a single campus or art studio. We are 144 students at four local colleges. We are 81 competitively paid employees at 31 businesses. We are 630 professional volunteers at 120 non-profit organizations. We are 80 career artists who exhibit our work locally, nationally, and internationally. We have internships at professional organizations. We launch innovative and intensive Vocational Training Services that help prepare and propel young adults into fully integrated, inclusive lifestyles.

At Tierra, we believe that, regardless of the notion of disability, each person has the potential and the right to lead a full, productive, and personally meaningful life. We are actively working towards the day when people with any type of disability are fully recognized as an integral part of our community - as neighbors, co-workers and contributors.
