

# **SPRINGWOOD SCHOOL**

***Educating for Today, Tomorrow, and Eternity***

Springwood School is making plans for its annual Interim Week experience planned for March 8-10, 2017. The purpose of the annual Interim Week experience allows the senior class to participate in a job shadowing activity in a field of particular interest to them. This activity allows our students the opportunity to investigate career choices to which they have indicated as an area of interest.

The Interim experience in the past has benefited students to help them make connections to learning what they want to major in during their upcoming college years. The valuable job shadowing opportunity has even steered some of our students into different career paths as they have learned insight that the profession was not what they expected.

This year we have twenty-nine seniors that are making plans for their interim experience. We will assign school staff members to remain in contact with the students throughout the three days of job shadowing. This will allow us to monitor their performance, log their working hours, review their host expectations, and address any questions or concerns a supervising host might have.

Our students are required to keep a daily log of work experience for the three days they are on Interim. They are to record their daily experiences in a journal and submit a 750 word report as a follow-up on their participation. A supervising evaluation will also be collected by school staff which will take into account areas such as professional dress, punctuality, behavior, ability to follow directives, initiative, and overall attitude.

Springwood School is a participating member of the Greater Valley Area Chamber of Commerce. Please contact David Owen, the Springwood High School Administrator at [dowen@springwoodschool.com](mailto:dowen@springwoodschool.com) or call the main office at 334-644-2191, If you may consider hosting one of our seniors to job shadow for as part of their interim experience. Below is a list of some of the career fields of interest for the students planning to participate.

Thanks in advance for your consideration.

Sincerely,

David Owen  
HS Administrator
