PGW hereby solicits proposals in accordance with these Proposal Documents.

2. Project Definition and Requirements

2.1 Overview

2.1.1 Overview of PGW

PGW is a municipally-owned utility operated by the Philadelphia Facilities Management Corporation (hereafter referred to as "PFMC"). The successful Proposer will enter into a negotiated contract with PGW by PFMC. PGW provides natural gas service to approximately 502,000 active accounts within the city of Philadelphia, using 6,000 miles of gas mains and services. PGW is the only utility currently distributing natural gas within the city of Philadelphia, and its mission is to provide safe, reliable natural gas service to the citizens of Philadelphia at a reasonable cost.

2.1.2 Background Information

PGW deployed CISPlus from SPL WorldGroup, Inc. as its Customer Information System in 1999 and branded it internally as BCCS (Billing, Credit and Collections System). In 2005, PGW implemented its Advanced Intelligent Mobile Solution ("AIMS"), an in-house-developed Work and Asset Management solution. AIMS is utilized by PGW's Field Operations Department and other departments to manage resources and assets, as well as to initiate, design, estimate, schedule, assign, dispatch, monitor and complete short and long cycle work.

Through the years, PGW has incorporated a number of major enhancements to both applications to address regulatory and business requirements, and has integrated them with each other as well as with commercial off-the-shelf solutions and other custom-developed solutions to address functionality gaps.

While these legacy applications have served PGW well for many years, PGW in early 2017 contracted with an experienced vendor to perform an assessment to evaluate and recommend long-term strategic alternatives. As a result of this assessment and other determining factors, PGW Management has decided to embark on a CIS Replacement project. During the assessment, PGW evaluated and scored close to 2,700 requirements that the assessment consultant had gleaned from the requirements of other utilities with similar profiles to PGW. The requirements were identified to help align PGW to available solutions, including the functionality provided through the custom configuration and code work of the System Integrators.

2.2 Services to be Provided/Scope of Work

The successful proposer will assist PGW in the selection of a new Customer Information System ("CIS") including a service order Mobile Work Management ("MWM") application for short cycle work and a Digital Customer Self Service ("DCSS") portal, as well as the selection of a System Integrator(s) for the aforementioned solutions. Deliverables include but are not limited to the development of the Request for Proposal(s) ("RFP"), the analysis of RFP responses, management of vendor and/or system integrator demonstration/workshops and assistance with contract negotiations with software vendors and system integrators in accordance with utility industry best practices. The selected Proposer is expected to assist PGW with guidance during the contract development and its negotiation while maintaining a

Philadelphia Gas Works – Request For Proposals for CIS Selection Consultant

perspective of PGW's best interests considering project's costs and contract implications. Proposers should describe the methodology they will use to guide PGW to the desired outcome in its proposal, including but not limited to all questions in Attachment C – Proposer Methodology.

2.3 Term

The contract between PGW and the successful Proposer will be for 18 months and is expected to start immediately following contract execution.

2.4 Proposal Pricing

Each RFP Response must be a proposal with a fixed cost and a detailed plan of how they plan to provide the requested scope of services described above.

All proposals must include a schedule of payment linking each payment with the critical events/deliverables. Payment shall be by invoice, and reviewed and approved by PGW. Compensation to Proposer shall be upon the agreed upon milestones, less a 10% retention to be paid upon successful completion of the Vendor and System Integrator Selection process.

2.5 Proposer/Personnel Minimum Requirements

Proposers must have a proven track record with CIS selection projects within the gas utility marketplace. Specifically, Proposers must have at least 10 years of experience in (i) pre-RFP requirements gap analysis and requirements gathering, (ii) the assembly and issuance of RFPs, (iii) the evaluation of commercially available CIS solutions and system integrators, and (iv) the negotiation and approval of final contract(s) associated with a project with this scope in the utility industry.

2.6 Licensing

The Proposer will be authorized to do business in the Commonwealth of Pennsylvania and comply with all pertinent state and federal requirements, codes and regulations.

If Proposer is a "business" as defined in The Philadelphia Code, Section 19-2601, Proposer must have a valid commercial activity license, issued by the City of Philadelphia's Department of Licenses and Inspections, to do business in the City of Philadelphia, prior to entering into any contract with PGW.

2.7 Information/Product

All reports, surveys, tables, charts, diagrams, design work, product recordings and other data (including electronic, audio and video) or documentation prepared or compiled by Proposer in connection with the performance of its obligations under the contract, shall be the sole and exclusive property of PGW. Proposer shall retain in its files, sufficiently detailed working papers relevant to its engagement with PGW. Proposer further agrees that its working papers will be held in the strictest confidence and will not be disclosed or otherwise made available to outside sources, except as required by law, without the written consent of PGW.

Philadelphia Gas Works – Request For Proposals for CIS Selection Consultant

2.8 Confidentiality

Proposer must agree to keep confidential any and all information concerning the plans, operations or activities of PGW which may be divulged by PGW or ascertained by Proposer in the course of performing services under any contract with PGW. In the event the Proposer is required to disclose confidential information pursuant to a subpoena, order of a court, or other legal process, the Proposer, shall, upon notice of such required disclosure and prior to disclosure, immediately notify PGW and allow PGW the opportunity to inspect the information subject to disclosure, and in the event such disclosure is objectionable under any standard or rule of the court, the Proposer shall exhaust all legal means to prevent disclosure.

2.9 Minority Participation

PGW has established an anti-discrimination policy relating to the participation of government-certified Minority, Women, Veteran, and/or Disabled Owned Business Enterprises; collectively known as Disadvantage Business Enterprises (“DBEs”) in contracts and in workforces, which policy is designed to provide equal opportunity for all businesses and persons to assure that its funds are not used, directly or indirectly, to promote, reinforce or perpetuate discriminatory practices. Proposers must complete Attachment B (Demographic Survey), attached hereto and submit same with their proposals.

For this project, PGW has not established a goal for participation of DBEs. Each proposer must exercise its Best and Good Faith Efforts to include “DBEs” in its proposal. “Best and Good Faith Efforts” are those efforts, the scope, intensity and appropriateness of which are designed and performed to achieve meaningful participation of DBEs in the work described in this proposal. Proposer’s desire to self-perform all of the work does not excuse proposer from its exercise of Best and Good Faith Efforts. In furtherance of such purpose, each Proposer may employ some or all of the following methods:

- Contact DBEs that reasonably could be expected to submit a quote and are available in the OEO Directory of Certified Firms before the proposal date and notify them of the nature and scope of the work to be performed.
- Break down or combine elements of work into economically feasible units to facilitate DBE participation.
- Work with trade, community, or other organizations that provide assistance in recruitment of DBEs.

Proposer shall procure and maintain, at its sole cost and expense, insurance with companies that have an A. M. Best’s rating of not less than A- and acceptable to PGW, with coverage limits of not less than stipulated below. Philadelphia Gas Works, Philadelphia Facilities Management Corporation and the City of Philadelphia and their respective officers, employees, directors, boards, commissions and agents shall be included as Additional Insureds on the General Liability and Automobile Liability Insurance policies. PGW reserves the right to negotiate acceptable terms in an otherwise unacceptable Proposal. Such negotiations may result in changes to material terms of this RFP; in such event, PGW shall not be obligated to inform other Proposers of the changes, or permit them to revise their Proposals accordingly, unless PGW, in its sole discretion, determines that doing so and permitting such is in PGW's best interest. Should negotiations not prove satisfactory with the recommended Proposer(s), PGW reserves the right to discontinue negotiations with the recommended Proposer(s) and additional firms may be asked to enter into negotiations or PGW may solicit new Proposals or issue a new Request for Proposals.
