

CAQH Training for Practice Managers and Providers

It is extremely important for providers' credentials to be maintained on the CAQH website. Health plans review this information during their credentialing and re-credentialing process. If the most current provider information, including practice address and phone number, is not reflected on the CAQH website, physicians run the risk of being terminated from a health plan. In an effort to ensure all practices understand how to use the CAQH website we are providing you with a listing of upcoming CAQH webinars. You can register for these events by visiting the CAQH website at the following URL <https://www.caqh.org/solutions/caqh-proview-trainings-practice-managers-providers>
