

# From the Pastor

March 21, 2017

Our District Superintendent recently reported that volunteers at the district training event on February 12th packed 285,120 meals that have just been shipped to Haiti. Our in-country ministry partner, Cross International, will be distributing the meals to those most in need.

The Cross International Alliance provides food, clothing, medicine and medical supplies, access to clean water, housing development and other types of aid for self-help programs and educational programs while also meeting needs in disaster relief or recovery situations. You can learn more about The Cross International Alliance on YouTube or their website at [www.crossinternational.org](http://www.crossinternational.org).

It was a thrill to participate in packing the food and getting to know some other folks from around the district. Our own modular home project volunteers were also at the event leading a wall building project for our next Red Bird home. St. Mark's is known throughout our district and conference as a church that genuinely cares for others. Thank you for all you do in making St. Mark's a wonderful place to serve Christ!

Blessings,

Craig
