

Tlementoring Network

For Allied Health Professionals

Mentor Orientation **August 26**

The Telehealth Alliance of Oklahoma is sponsoring a new
volunteer mentoring network for allied health professionals.

This peer-to-peer interaction will provide health professionals the
opportunity to learn telehealth presentation skills from their peers.

If you are an allied health professional who is experienced telehealth
provider, and would like to share your skills with other professionals in
your discipline, we would like you to consider being part of our network.

An informational orientation for all allied health professionals interested
in being a tlementor will be held on August 26, 2016. A light lunch will be
offered for those on-site, or you can attend remotely.

Contact us at tao.okla@gmail.com for more information.
