

NJ Commissioner of Education Dr. Lamont Repollet Visits FMS to Recognize & Celebrate District Success

On June 12, 2018, NJ Commissioner of Education Dr. Lamont Repollet and County Executive Superintendent Roger Jinks visited Frelinghuysen Middle School to both celebrate the academic successes of the FMS students, especially as it relates to student growth, as well as to have a discussion with Morris School District stakeholders about the next generation of assessments.

Commissioner Repollet visited math classes and our orchestra, and he engaged our students and teachers, asking questions about learning, testing, and life as a student in 2018.

We thank Commissioner Repollet and County Superintendent Jinks for celebrating our school culture and recognizing our commitment to each student ascending emotionally, socially, and academically.
