

Alfred Vail Elementary School

A Celebration of Cultures

Each year Alfred Vail School's 2nd grade students participate in a dance residency in which the students learn about different cultures through music, dance, costumes, and performance.

This year the countries represented in the residency included Ghana, Japan, Dominican Republic, Russia, Scotland, and India.

The residency provided the opportunity for children to refine skills through cooperation, patterns and the art of performing on stage for their parents and the entire Alfred Vail community.

Alfred Vail's first grade students studied and created art related to the countries showcased in the residency. Their work was displayed throughout the auditorium making this a school-wide celebration of cultures.
