Lexus Maintenance Service Starting From **\$286.00***

Planetary Gears
Gear shifting is performed by combinations of the input gear, output gear and the locking gear.

Planetary Gear Set
Diagram showing the components of a planetary gear set: Sun Gear, Pinion Shaft, Pinion Gear, Carrier, and Ring Gear.

Transmission Fluid

Transmission fluid is an integral part of your automatic transaxle function. Check with your Service Advisor for recommended service intervals for your Lexus vehicle.

- Replace engine oil and filter
- Remove and inspect engine air filter
- Lubricate locks, latches and hinges
- Perform battery and charging system evaluation
- Remove wheels, rotate tires(if required) and optimize tire pressure
- Brakes: check pad thickness, calipers, brake lines and tires
- A thorough inspection of many more items
