

ProTherma™

Glanbia provides a new alternative for hot ready-to-mix powdered beverages and foods with the release of ProTherma. An agglomerated hydrolyzed whey protein, ProTherma is high in protein, stable and soluble in hot water applications.

Protein that Takes the Heat. Consider the Landscape for Hot Ready-to-Mix Powdered Applications Changed.

ProTherma is an agglomerated hydrolyzed whey protein designed for use in hot ready-to-mix powdered beverage and food applications. ProTherma can be consumed in hot coffees, teas, chocolates, malts, soups, oatmeals, coffee creamers and coffee pods because it is heat stable and soluble.*

ProTherma Benefits

- Heat stable protein able to withstand brewing
- High in protein (85%)
- Soluble at high temperatures
- Low lactose

How ProTherma Compares to Other Whey Proteins

ProTherma Completely Dissolves into Hot Water

ProTherma Chocolate Malt Beverage Formulation Example

ProTherma is great for many hot beverage applications.
