

Stocks, Broths, Fats and Extracts

Flavor, functionality, mouthfeel and nutrition
for the food industry

Stocks, Broths, Fats and Extracts

Essentia's stocks, broths, fats and extracts deliver taste, functionality and mouthfeel to the food industry.

The individual products offer a species-specific flavor direction, and work as effective building block components for a variety of culinary and food applications.

Our stocks, broths, fats and extracts are available in beef, chicken, pork and turkey.

Applications

- › Seasoning blends
- › Soups, sauces, gravies and marinades
- › Prepared foods
- › Deli meats
- › Meat sticks and snacks
- › Emulsified meats
- › Base for reaction flavors
- › Natural source of chicken bone broth
- › Ready to eat

Benefits

- › Clean label - 100% Natural, no added salt
- › High protein content
- › Enhances meaty notes
- › Highly soluble/ Injectable
- › Reduces water activity
- › Favorable labeling
- › Reduces costs
- › Allergen free
- › No gluten containing ingredients
- › No added MSG
- › Umami flavor

**Protein is calculated using a total nitrogen conversion factor of 6.25.

EmulPro™

EmulPro™ is the product family brand for Essentia's proteins that can provide mouth coating, fat-like flavor in apowdered form in savory applications; or proteins that can provide outstanding viscosity, texture building and emulsification capabilities in many other food applications.

Applications

- > Soups, sauces and gravies
- > Seasoning blends and marinades
- > Prepared Foods

Benefits

- > Provides fat-like flavor in a powder form
- > Contributes to mouth coating
- > Full bodied mouthfeel
- > Adds poultry skin notes
- > USDA-approved as "Natural"
- > Non-allergenic
