CentraCare Health's Cancer Survivorship Center

CentraCare Health's Cancer Survivorship Center will provide resources for more than 7,000 cancer survivors in Central Minnesota.

A Cancer Survivorship Center will provide all the resources patients and their family needs as they move from treatment back to home and work. It also will serve as the connection place for services that truly enhance patients' lives throughout their cancer journey.

CentraCare remains dedicated to providing leading-edge quality care in Central Minnesota, despite not all services being covered by insurance. To make the Survivorship Center a reality, \$3.2 million in funding is needed to build this space dedicated to our cancer survivorship initiatives.

Community gifts allow CentraCare to continue to be a leader in the delivery of care, while improving the patient experience. Every gift — of every size — makes a difference.

So, join in and enjoy this opportunity to casually interact in a group setting with your fellow peers. It is a great ground breaker for experienced and new staff that provides an opportunity to exchange ideas, projects, staffing or interpretation of new regulations. Both providers and vendors will have the chance to discuss issues, and share business cards while getting to know each other.
