

CBP Business Incubation Center welcomes Irving C. Best, Jr., President and CEO of (TES), TruBest Enterprise Solutions LLC. TruBest has been a long-time client at CBP and needed a full-time office environment to take his business to the next level. TES is a Small Business Administration (SBA) certified 8(a) firm and verified Service-Disabled Veteran-Owned Small Business (SDVOSB) which provides services supporting best practices in Cyber Security, intelligence and technical solutions for its customers. The company offers Information Assurance (IA) services to protect the confidentiality, integrity and availability of data processed on business systems. TruBest Information Assurance services protect data and system resources. The company specialized services include Cyber Security Assessments, Vulnerability Management, Incident Response, system development, migration, implementation and green technology life cycle management. TruBest supports security compliancy for technical infrastructures owned and operated by Federal and private industries. The TruBest Mission is to provide Information Assurance management and to integrate new technologies into the business operation efficiently. TES assists companies, agencies and departments to bridge security gaps with people, technology and the organizational business operation.

Mr. Best is first generation native born in New York City. He found his way to Virginia as a United States Marine where he served as a Military Police in Quantico Virginia and Okinawa Japan. Mr. Best has over 25 years of Cyber Security engineering experience. He leads various types of projects integrating Information Assurance (IA) technology in enterprise architectures, application and system development, database design, IA Tools, Vulnerability Management and supports the Defense Information Assurance Certification and Accreditation Process (DIACAP) transition to the National Institute of Standards and Technology (NIST) Risk Management Framework (RMF). He leads operational and technical personnel supporting the Department of Defense and other Federal Agencies through certification and authorization activities during a system lifecycle to include continuous monitoring requirements. Mr. Best provides consulting services to support customers in managing their baseline system security posture.

Mr. Best has achieved several educational successes that include an Associate in Business Management from St. John's University, a Bachelors of Science in Business Administration with a Masters in Computer Information Systems both from Strayer University. He has also completed the National Defense University (NDU) Chief Information Officers (CIO) and Information Resource Management certification program graduating in the Advance Management Program (AMP) 21. Mr. Best also maintains appropriate certifications to support his Cyber Security passion. He has an extensive career supporting Cyber Security initiatives over the past couple of decades. He worked as a Federal employee prior to transitioning as a consultant supporting the Federal government. Mr. Best founded TruBest as a company that offers "True Services" to its customers and personnel.
