

Specialized Advocacy

If you're not at the table, you're probably on the menu. Building on 40 years of lobbying experience, CWCSA will provide **Specialized Advocacy** services targeting subjects in the California Legislature and before various state regulatory agencies such as the Division of Workers' Compensation. Once we identify a matter of concern, we will specify an estimated budget for our advocacy services and begin collecting funds for the project. As soon as the budgeted minimum amount has been raised, we will commence lobbying. If the minimum budgeted amount is not raised by a specified time, we will refund 95% of the contributions and will discontinue any advocacy on the issue.

CWCSA is also prepared to advocate on issues of specific interest to individual CWCSA members at a prearranged professional fee.
