

Erosion Control - 2017 Updates & Enforcement Trends

PDH Credit Opportunity for Engineers!

Program Description

This professional development program will cover the importance of Erosion Control and the foundation of principles for why it is necessary to keep our water sources clean. We will also provide an update as to where EPA enforcement is headed and what erosion control alternatives are available.

***This class qualifies for 1 professional development hours (PDH) for civil engineers.**

Learning Objectives:

- The Impact of construction runoff on the environment
- Negative effects on immediate job sites/neighborhoods esthetics/etc.
- Best Management Practices (BMP) for stormwater runoff
- Latest EPA enforcement and compliance issues including MS4 funding
- Cost of fines vs. cost of erosion control applications
- Recent industry changes in stormwater runoff
- Overview of erosion control alternatives
