## Great News For Ponderosa Lodge!

This February, La Foret Conference & Retreat Center received word that we are one of eight applications that received the maximum \$200,000 grant for the restoration of the Ponderosa Lodge! \$3,900,000 in grant money have been given by the History Colorado State Historical Fund in the 'greater than \$35,000' category. These grants are given for requested projects to preserve, rehabilitate, or purchase properties that are of historical significance. Most of the properties are on the National or State Historic register. Ponderosa Lodge is on both!

The \$200,00 along with our required matching money from La Foret of \$85,000 will go specifically for site drainage, log construction repair, chimney repair, added roof drainage, and first floor rehabilitation. This was all spelled out in a budget within the application. The general purpose of this request was to rehabilitate previous water damage and to prevent further damage. The process for spending these funds is under a very strict and arduous budget process designed to meet standards for historic reconstruction and preservation. The

Lauren is a dedicated, very hard worker in several settings around La Foret. She is a talented 'head cook' in our kitchen, as she thoughtfully prepares delicious camp meals with a personal touch and a caring hand. Beyond the kitchen, Lauren is also the 'head of housekeeping.' She trains new staff and endures a variety of demanding tasks, dedicated to camper's comfort. Even more, Lauren will also be found out at the pool - as a certified lifeguard, ensuring the safety of our campers. La Foret greatly appreciates Lauren for so much of her time and hard-work, and we honor her for everything she does!

*"How I love thee...La Foret. Let me count the ways...I love to cook for all the folks who venture in each day. And making sure that where they sleep is tidy, nice and clean. And when they wake, the mountain view is really quite a scene. So if you want to take a dip and jump into the pool, I'll keep you safe and watch you play, so keep your body cool." -Lauren Maupin*

This grant will allow La Foret to continue its mission to provide a natural sanctuary to all guests to consider the transcendent issues in their group and individual lives.

This grant will allow for visibility in the greater historic conservation community, bring awareness to Alice Bemis Taylor's historic summer home, La Foret, and the work of the architect Benedict. This may set the stage for further restoration work and helpful grants. History Colorado is aware, as they are in many more of their grant projects, that there will need to be several more phases of rehabilitation.

Stewardship takes many forms, and this is one way we work to continue to provide you with the best possible facility and to be stewards of this gift. Your feedback tells us you appreciate our efforts.

We keep our prices as low as possible, and when big work on a historic building needs to be done, we rely on grants and donors to provide the extra funds. In this case, a shout-out to La Foret Board Member Larry Ricketts, a member at Park Hill UCC in Denver, is delightfully appropriate. He wrote the grant application and managed the process. There is a huge amount of work in this short statement. We are grateful for his patience and hard work.

Thank you, Larry Ricketts!!
