## **WAYNE SMITH, CISSP, CISM**

**President, Tech Systems, Inc.**

Wayne Smith is President of Tech Systems, Inc. In his role, Smith leads this team in providing service-centric and converged security solutions to end users and Fortune 500 companies. He provides clients and prospects with the essential information, technology, and training to manage the ever-increasing convergence of logical and physical security solutions. Smith currently holds the following certifications; Certified Information Systems Security Professional (CISSP) Certified Information Security Manager (CISM), ASIS Certified Protection Professional (CPP) and Physical Security Professional (PSP), and various Cisco certifications.

Mr. Smith has over 25 years of experience in the IT and security industry. Prior to Tech Systems he spent thirteen years with Synovus Financial Corporation and TSYS in Columbus, GA where he held the position of Director of Information Security for Total System Services and Vice President, Facilities Technology for Synovus. Prior to that time, he was the Assistant Vice President, Security Systems Manager. He brings a wealth of experience in the design and implementation of physical and logical security systems. Prior to working with Synovus, Smith was a Military Police Officer with the United States Army.

Smith received his Bachelor's degree from Columbus State University and his MBA from Kennesaw State University.

# **SHAWN REILLY, CPP, PSP, CHPA, CPD**

**Professional Services, Tech Systems, Inc.**

Mr. Reilly has over 40 years of security and law enforcement experience. At Tech Systems Inc., he is responsible for conducting risk assessments and building security training programs. He regularly instructs our clients on active shooter defense. He also conducts training on various other security-based topics such as metric development and policies and procedures for our clients who are building their security programs.

He spent 29 years in the USAF as a security forces officer working in law enforcement, security, and antiterrorism. Upon his retirement, he worked for a defense contractor as a senior analyst in the asymmetrical threat division. After moving to Greenville, SC, he took over as Chief of Police and Director of Security at the Greenville Health System. There, he led a 130-man security force and 14-man police force. While at GHS, he spearheaded the design of security systems for two new hospitals before coming to work with Tech Systems Inc. Through various law enforcement and security-based training and certification programs, Mr. Reilly developed and instructs an active shooter defense training program that has been attended by over 2,000 of our clients'.

In addition to Mr. Reilly's many years of experience, he has stayed current in the numerous areas of physical security, through professional certifications and active participation in American Society of Industrial Security (ASIS) technical committees. He has certifications from ASIS as a CPP and PSP. He has the highest level of certification from the International Association of Hospital Security and Safety (IAHSS) as a CHPA. He is also certified in Crime Prevention Through Environmental Design as a CPD.

Mr. Reilly has a BS degree in Education from Southern Illinois University and a Master's of Science in Administration from Central Michigan University.

## **DEBORAH CASEY, CCP, CFE**

**Global Security Technology Manager, Coca-Cola Co. - Retired**

Ms. Casey has over forty years of experience in security industry. Before retirement in March 2018, she spent twenty years with The Coca-Cola Company where she held the position of Global Security Technology Manager. She was responsible for building a global standard technology platform for the Coca-Cola Company across multiple business units. In her role, she was responsible for creating value to the organization through the use of physical security systems.

Prior to that time, she was the Assistant Security Director for Bank South for thirteen years and spent seven years with Tech Systems Inc. in various Sales Management roles. She brings a wealth of experience in the design and implementation of physical and logical security systems.

Ms. Casey currently holds the following certifications; ASIS Certified Protection Professional (CPP), Certified Fraud Examiner (CFE) and State of Georgia Low Voltage electrician license. Ms. Casey received her Bachelor's degree in Criminal Justice from Georgia State University.

## **SAGI GEVA**

**Director, Acute Care Solutions, STANLEY Healthcare**

Sagi joined STANLEY Healthcare (formerly AeroScout) in 2008 and has since held various leadership roles within the company. With his strong passion for technology and innovation and over 15 years of experience in the technology and healthcare industries, Sagi has helped healthcare organizations realize value by adopting Real-Time Location Solutions.

Sagi holds a Bachelor of Science degree in Electrical Engineering and worked 5 years with the Professional Services Organization, leading the implementations in the West Coast. With the experience gained in the field, Sagi moved to the Product Marketing group and was responsible for the release and adoption of interfaces to 3rd party systems, mobile device strategy and clinical workflow solutions.

As a thought leader in healthcare technology, Sagi has participated in numerous speaking engagements at HIMSS, technology conferences and expert panels.

In his current role, Sagi leads a team of subject matter experts and drives the strategy for solutions developed for the Acute Care market. Sagi drives STANLEY Healthcare's roadmap while focusing on the use of new technologies and platforms like BLE, IoT and Analytics, to help healthcare organizations improve patient experience and become more safe, secure and efficient.

## **DIANE HOSSON**

Vice President, RTLS Protection Solutions, STANLEY Healthcare

Diane Hosson is a frequent speaker at industry conferences, has delivered numerous educational webinars and contributed to top-tier healthcare publications to share insights and best practices gleaned from over 18 years of dedicated focus on the healthcare industry.

Known for her engaging presentation style, Diane is a passionate speaker and recognized subject matter expert. She has assisted hundreds of healthcare leaders better understand how the adoption of wireless technology applications can improve operational efficiency, empower staff and enhance the patient experience.

Diane's speaking style challenges audiences to think differently about how they approach their roles as leaders, patient experience advocates and change-makers within their organizations. Her signature presence when speaking is an equal balance of leadership theory and tactical application.
