

is proud to announce

that Central Catholic High School
has chosen us to be your 2017-2018
Photographers.

You may already know us from the sports magazine that we publish. For the last 14 years we have covered your school's sports teams as they have competed to the highest levels in the state. We have photographed your athletes as they prepare for rewarding careers in college and some into the professional ranks.

What most of you may not know

is for the last six years we have been the Yearbook Photographers for Normal West High School. We provide them with portraits for their class pages of their yearbook. We record pictures of all their clubs, organizations, and events. We take pictures at Senior Awards, School Plays, and even cover their orchestra. We have taken Senior Photography for many of West's seniors. Oh, and yes, their yearbook staff has access to many of our sports action pictures. Now we are preparing to provide your school with the same great service.

We will have packages available for purchase for Yearbook, Team Sports, Individual Sports, Band, Plays and Organizations and any other groups that you have.

We want to bring an innovative style of service to Central Catholic that exceeds all your expectations. We want to provide professional training to your Yearbook staff by having them take pictures on the sidelines with us while we mentor them in the techniques for good sports photography.

We also will give your school a percentage of our profits from the Senior Photography. That will include Photos, Books, Graduation Posters, and Canvas Wrap.

We don't just send a photographer, we include an assistant who can also be a second photographer. We allow multiple outfit changes, and do studio and location photography.

We are excited for this opportunity and are committed to providing the best pictures for you and your school.
