

Adult Education Works For Everyone

We Lift People Up

ADULT EDUCATION helps lift people and their families out of poverty by letting them earn a high school diploma or HSE — which increases a worker's earning power by nearly \$10,000 a year, while saving taxpayers an estimated \$300,000 in public assistance and other costs.

But as the need for Adult Education is growing, funding is not — threatening those we serve — immigrants, people in poverty, the homeless and inmates reintegrating into society.

Adult Education is lifting people up. Celebrate it. Don't shortchange it.
