

## How to Generate Quotes using the Instant Quoter

The Instant Quoter allows you to instantaneously make a quote without having to call and request a quote. It generates quotes for a number of different signs such as: Standard Channel, Standard Logos, Standard Capsule/Boxes, Square Tube Rail for mounting logo/boxes/capsules to raceways, vinyl & digital prints, remote or raceway, and LED or no LED signs. All other sign types will have to be called in to get a quote from one of our [sales staff](#).

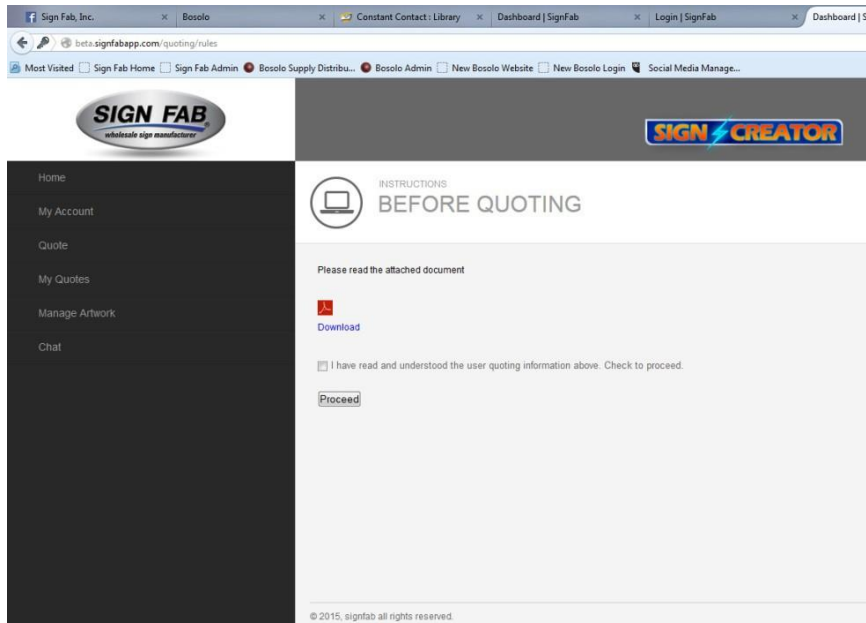

At this time, the Instant Quoter is set up to generate quotes for “standard channel” type signs. This is a front lit channel letter, 5” channel depth, acrylic faces, with or without LEDs, and with or without vinyl or digital graphics.

## Getting Started

To get started you need to login to your account (either online or on the Sign Creator App). We strongly suggest reading the [instructions](#) before proceeding with the quote. The instructions are very important in understanding how the instant quoter determines what specifications you want for your sign. It will then ask you a series of questions that you can answer straight from your mobile phone, tablet or computer.

Once you have an account and you are logged in, click the quote button on the left. You will then see a screen that will ask you to read the instructions.

## Instant Quoter

Once the instructions are read, you will proceed to the actual quoting page. It will ask you a series of questions such as your delivery location, how many sets you will need, and how many text copies. This is where it gets more involved and where the instructions become helpful. Once you have the text copy placed in, it will ask if you want block, italic or script font, preformed or welded, what color paint or coil, and so on. Everything that is necessary to complete your quote. If you’ve missed a step by accident, it will show up in red if you try to move to the mounting page so make sure you’ve clicked all the necessary boxes before moving forward.

Description about your quote

**MOUNTING OPTIONS ON NEXT PAGE**

- Pricing: Prices are based on current market value of products and labor; these are subject to change.
- Materials: Instant Quote material prices are based on our standard stock materials. Standards include: Faces - 3/16" Acrylic Faces, Trim - Wagner Jewelle, Preformed Return - 5" 040 Aluminum Prefinished, Welded Return - 5" 063 Aluminum painted Matthews Nuance (No Metallics), LED - Principal Fusion 2, Vinyl - Afton 2500 Series Vinyl, Digital Print - GF Double Layer with Clear Overlay, Raceways - Aluminum 4"x7" are extrusion and 7"x12" are custom fabricated. If you would like further details on materials used please contact sales@signfab.com.
- Production Time: 12 to 14 working days from date of signed drawing approval.
- Delivery: 1-4 days after completion (depending on location).
- Terms: 50% down, balance required at delivery.
- Oversized Projects: Standard material sizes are 5'x10' aluminum and 5'x8' acrylic. Oversized projects may have seams unless special arrangements are made.
- Delays: Problems with artwork, colors, sizes, etc. may delay production and/or incur additional cost.
- Quotations are effective for 60 days and are only valid for the text and specifications proposed.

Once you're through the specifications it will ask you if there's a custom logo. If yes, fill in the necessary specs. If no, move to the next category. The same steps apply for the box/capsule category. If yes, choose the specs. If no, name your sign and then proceed to the mounting options on the next page.

## Mounting Options

Once you're through the specifications of the sign and you're on the mounting page, it will ask to select if the sign has a raceway. Depending on how many sets and text copies you have depends on how many raceway options are available to you. If no raceway is required hit the dropdown menu and select 0. Then click proceed. If there is a raceway, hit the number that is needed. Choose which copy, and what size of raceway the sign requires and if you want a photocell. Once you've done that you've completed your quote!
