Mock caught the aviation bug at seven-years-old, when she rode in a Ford Trimotor plane at a local festival. In high school, she displayed a talent for math and science, and she was the only woman in her aeronautical classes at The Ohio State University. Her husband later joked that she should fly around the world and it inspired her to pursue her childhood dream. But the dream soon became a race, as another woman, Joan Merriam Smith, also sought to be the first to circle the globe. Come along for the ride in the Spirit of Columbus as Jerrie Mock battles wing ice, sandstorms, and many more challenges along the way.
