

# Community LINC's Young Professionals Board

The Young Professionals Board is dedicated to creating a dynamic environment that fosters connections between young professionals as they engage in ending family homelessness.

## Mission

The mission of the Young Professionals Board is to engage, empower and educate future young leaders about the challenges facing homeless families. Through education, fundraising and networking initiatives, the group learns about issues affecting the community and directly helps their neighbors in need. The Young Professionals Board offers members hands-on experience as well as opportunities to learn about Board service, to plan group projects and network with other young professionals.

## The Young Professionals Board accomplishes this by:

- Educating ourselves and others about solutions to homelessness
- Volunteering our time in service activities
- Planning fundraising, networking and social events

Through these activities, we advance the mission of the Community LINC, a rapid rehousing program dedicated to ending homelessness by rehousing, stabilizing and empowering families to thrive independently in our community.

## Interested in Joining the Group?

The group meets once a month at various locations in and around the Greater Kansas City Metropolitan area. Contact Jonathan Barnes at 816.462.9086 or via email at [john.l.barnes@gmail.com](mailto:john.l.barnes@gmail.com) for more information.
