Diabetes and Costly Complications Reduced

Kidney failure rates decreased 54% reducing the need for dialysis

Obesity and diabetes rates in youth have not increased in more than 10 years

Diabetes rates in adults have not increased since 2011

SDPI will expire in September 2017, unless reauthorized by Congress

“SDPI is the most effective federal initiative for combating diabetes in our AI/AN communities. Thanks to SDPI, our people are healthier - now and in future generations.”

Lincoln Bean (Tlingit)
Alaska Area Representative
Tribal Leaders Diabetes Committee
