

Resident's Choice

Employee of the Month

Carol Lewallen

Carol has been at The Park for almost one year, but her teamwork, compassion, and good nature, makes it seem as if she's always been a part of our family. One of the things she is proudest of is that she was able to complete her education completely on her own via scholarships and hard work, WHILE she was raising her 3 children as a single mom. She received her nursing license in 1992 and her Bachelor's Degree in 2006.

Carol started in the medical field as a receptionist at Urgent Care. She couldn't help but notice that the folks who came in were always in a terrible mood when they got there, but always feeling better when they left. She decided she wanted to be on THAT side of health care, making others feel better!

Carol lives on a 20 acre farm, raising horses and her 3 children, and we are so grateful she's here as she makes US ALL feel better!

**Thank you for ALWAYS going the
EXTRA mile!**
