

IASWECE
International Association for
Steiner/Waldorf Early Childhood Education

Thank You !!

Dear WECAN colleagues,

Every year while cold winter winds still sweep over the silent earth, a warm breeze of collegueship reaches us from over the big water. Your continuous solidarity gives hope and strength to the work we are all doing on behalf of the young child and makes us believe that in the end 'Goodness and Peace' will prevail.

... It was like fresh water coming from West. In these days of uneasy waiting for what could happen in our land, the support of other colleagues worldwide is hope giving especially in such difficult times of cultural and economic decline.

Being aware that you are facing in your country your own crises on many levels, your gesture of reaching out to other colleagues in need, shows that you are able to rise above the daily reality and unite with others in the greater cause we are pursuing together.

.... Knowing that we are united with them all in spiritual striving towards the development of the free human being is strengthening for our work..... Tarhan Onur

On behalf of all colleagues in IASWECE and our partners in Turkey,
I would like to express my sincere gratitude for your act of generous solidarity!

Clara Guts

Member of the IASWECE Coordinating Group

Tarhan Onur is the founder the Waldorf movement in Turkey and the ESDD (Friends of Waldorf education in Turkey) which is responsible for the Waldorf training in Istanbul, country collaboration and guides new initiatives.
