

# The National Connected Vehicle SPaT Deployment Challenge Workshop

~ in conjunction with the 2017 Annual Spring Conference ~

Thursday, March 2<sup>nd</sup>, 2017  
2:00 to 5:00 PM in the Ballroom

## A challenge...

...to state and local public sector transportation infrastructure owners and operators to cooperate together to achieve deployment of DSRC 5.9 GHz infrastructure with Signal Phasing and Timing (SPaT) broadcasts in at least one corridor or network (approximately 20 signalized intersections) in each of the 50 states by January 2020.

## Learn...

...from national experts about the challenge –  
What is the relationship between connected vehicles and SPaT?  
How are Dedicated Short Range Communications implemented at traffic signals?  
What's the benefit to local and state transportation agencies?  
How will this technology improve operations in the future?

## Speakers

John Conrad, AASHTO  
Ed Bradley (Toyota)  
Steve Kuciomba (WSP Parsons Brinkerhoff)  
Blaine Leonard (Utah Department of Transportation)  
Dr. Larry Head (University of Arizona's Transportation Research Institute)  
Greg Larson (CALTRANS)  
Siva Narla (ITE)
