Bachillerato Internacional

Dear SCVi Supporter:

As an employer, your goal is to hire well-prepared employees. SCVi, offers our students a curriculum rich in Science, Technology, Engineering, Arts and Math, which are disciplines necessary for the future. In addition, SCVi creates an educational environment which supports our learners development of skills identified as requisite for 21st century success: independent thinking, teamwork and team leadership, and creative problem solving. Further, SCVi has acknowledged that an excellent education and strong skills are not enough. All our learners grow in a culture which emphasizes the character attributes of Steven Covey’s Seven Habits of Highly Effective People. From our perspective we provide a fabulous and necessarily whole student centered educational experience.

We’d like to invite your company to help educate the learners of the Santa Clarita Valley International Charter School (SCVi) by becoming a donor for our Vision in Education Benefit Dinner. SCVi Charter School is a tax-deductible non-profit 501(c)(3) tuition-free public charter school (Tax ID # 47-4269250) Our 8th annual event will be held on Saturday, March 11, 2017.

SCVi Charter School extends to you the opportunity to be an auction donor for our Vision in Education Benefit Dinner. This year, our event will be held to support Arts and Technology at SCVi. By raising funds for our learners, you enable this school to continue to be a comprehensive teaching and learning facility, which is an asset to the entire community of Santa Clarita.

The support of our donors will make this evening a financial success. Your participation is greatly valued. To show our appreciation, your company’s name will be acknowledged in our event program book. We would be grateful for any donation you could give.

Thank you for supporting our learners and your future employees and community leaders

Sincerely,

Charlene Spiteri
iLEAD Foundation Director
