

Has Your Contact Information Changed?

We want to keep our communication and responsiveness to you as timely and reliable as possible. Please email your Mentor Director if you have changes to your preferred email address, phone number, mailing address or employer. It's all important! Not sure what we have on file? Telephone your MD or the Seedling office, and we can tell you.

FYI: We're excited about our brand new database! There is always a chance that some data may have been lost in the transfer. If you feel that somehow you or an acquaintance mentor is getting overlooked, please let us know right away.
