

**Will I keep the same mentee next year?
What if my mentee's parent is released?**

As long as the child and the caregiver continue to agree to participation, Seedling will support a continued match for any mentee enrolled in any Austin ISD school or a district or charter nearby, even if the incarcerated loved one has been released. *Our staff will contact you in August to confirm that you wish to continue mentoring and to help you reconnect with your mentee.*
